

Vegetables

Weeks 12-18

20 Pack

new for
2010

aubergine

Nubia

- Medium sized fruit which are purple with white stripes
- Medium sized well branched plants producing a good yield

chilli pepper

Demon

- This new British bred chilli pepper is a small hot pepper which is good for cooking but is also very decorative
- The small red fruits hang in abundance from compact plants which are ideally suited for patio pots

courgette

Ambassador

- Superb dark green courgette, perfect for stir fries or in salads
- Heavy yielding over the summer if fruits are harvested
- Powdery mildew resistant.

cucumber

Diana

- Diana is a superb long fruited cucumber, perfect for a cold greenhouse or small polythene poly tunnel
- This variety is reasonably cold tolerant and lends itself to amateur use

melon

Alvaro

- A wonderful melon for outdoor or cold greenhouse amateur production
- A small fruited Charentais type with sweet orange flesh

pumpkin

Jack of all Trades

- Fruit changes colour when it is ready to pick
- Produces a good yield of bright orange pumpkins, around 9lb each. The orange flesh makes great Pumpkin Pie!
- The variety is round but has a flat base which makes it excellent for carving for Halloween

sweet pepper

Beauty Bell

- A wonderful sweet bell pepper, ripens to an astonishing fire engine red

tomato

Moneymaker

- A reliable old favourite for greenhouse or outdoor culture
- Grown to the best organic transplant standards

Shirley

- An amateur gardening favourite for at least 25 years
- Excellent flavour, heavy yields and great disease resistance make this variety a winner

Tumbling Tom Red

- Good bush tomato for use in hanging baskets and patio pots

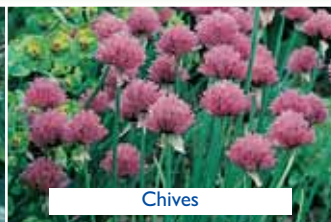

Herbs

Trays of 84 Weeks 6-20 26-38
